

# Add-A-Leaf/Lev-A-Load

Installation of a Rancho® Suspension System can increase the risk of vehicle rollover in abrupt maneuvers.

Many states have laws governing modification of original equipment suspension systems. Such laws may prohibit any modification which adversely affects safety or any modification altering the suspension more than a specific number of inches. Rancho® Suspension recommends that you contact local law enforcement in your area before modifying your suspension.

## Rancho®

does not recommend or endorse the use of its products in conjunction with those of other aftermarket suspension or lift kit manufacturers.

Do not use on vehicles with a mechanical Link Rear Proportioning Valve. Height may vary due to condition of Stock Springs. Check U-bolt length prior to installation, to see if there is enough threaded length to accommodate the new Add-A-Leaf. Approx. ½" to ¾".
